

Launching the IRM journey across Africa

An IRM South Africa Regional Group event

**Johannesburg War Museum | 22 Erlswold Way,
Johannesburg, 2132, South Africa**

Tuesday 28th May 2019

How can African risk managers and organisations operating within its borders remain flexible and resilient in order to thrive in an ever-changing national and continental context and associated risk landscape?

Delegates should expect:

- To gain insight into the African risk landscape coupled with key continent-wide scenarios that organisations and risk managers should prepare for. We will also discuss what the African Union is doing to develop strategic thinking among emerging leaders.
- To understand how the national risk landscape is expected to evolve after the general elections in May. South Africa's risk landscape has been equally, or perhaps even more, volatile than the African environment last year. We will also take a look at the latest South African scenario gameboard.
- A panel discussion including a Q&A which will unpack the key risks and trends that risks managers in South Africa and across Africa should be aware of in line with the IRM Risk Agenda 2025.
- To learn how scenario planning and organisational strategy should link into their risk management efforts.
- To learn about the IRM, its value proposition, and how to get involved.

Book your place and find out more about the IRM South Africa Regional Group here:

Speaker profile

Chantell Ilbury is a scenario strategist and facilitator with mindofafox, a speaker and best-selling business author with Clem Sunter of *The Fox Trilogy* books (*The Mind of a Fox*, *Games Foxes Play* and *Socrates and the Fox*). She is also a guest lecturer on strategy and scenario planning at a number of top business schools. Her latest book *A Fox's Tale - Insights from one of Africa's most creative strategic thinkers* is published by Penguin and is out now in both paperback and e-book.

In this talk, Chantell highlights the continually shifting global, African and South African scenarios, and the interplay between them, raising the question of what are Africa's and South Africa's key priorities.
